Full Stack Engineer with 6+ months hands-on expertise architecting scalable enterprise applications using React.js, Spring Boot, and MySQL. Specialized in component-driven architecture, RESTful APIs, responsive UI development, and performance optimization. Proven track record delivering 20+ production-grade React components, integrating 30+ REST APIs, and optimizing dashboard performance by 30%. Skilled in state management, secure authentication, and cross-platform responsive design.

EDUCATION

Bachelor of Technology in Computer Science Engineering

Centurion University of Technology & Management, Bhubaneswar

| August 2023 – May 2027 | CGPA: 9.40/10.00

INTERNSHIP

Full Stack Development Apprenticeship

January 2026 - July 2026

Lyient Technologies Ltd., Bhubaneswar, India

[Live Demo](#)

- Developed **20+ reusable React.js components** for Enterprise CRM modules, improving code reusability, maintainability, and user experience.
- Integrated **30+ RESTful APIs** using Axios with **Spring Boot** backend services, enabling seamless frontend-backend communication.
- Built and enhanced CRM features including **Employee, Organization, Product Category, Industry, Lead Source, and Dashboard** modules with complete CRUD functionality.
- Improved **dashboard performance by 30%** through component optimization, efficient state management, and responsive UI development using **React.js** and **Tailwind CSS**.

PROJECTS

AI Core – Student Resource Management Platform

December 2025

Personal Project

[Live Demo](#)

- Architected and developed a centralized student resource management platform using React.js and Tailwind CSS to organize notes, assignments, and academic resources.
- Built 15+ reusable React components with a responsive UI that works across desktop, tablet, and mobile devices.
- Implemented intuitive navigation and a clean dashboard layout to improve resource discovery and usability for 50+ users.
- Deployed the application on Vercel with a modern frontend architecture focused on performance and maintainability.

Healthcare Management System

March 2025 – December 2025

Personal Project

[Live Demo](#)

- Implemented a responsive Healthcare Management System using **Angular, Spring Boot, and MySQL**, delivering a modern and user-friendly interface.
- Implemented core features including appointment booking, hospital discovery, laboratory search, and pharmacy directory with secure RESTful API integration.

Freelance Frontend Developer

March 2025 – December 2025

Self-Employed

[Live Demo](#)

- Designed and developed a modern, responsive business website for **LyfeTech** using **React.js, Tailwind CSS, and JavaScript**.
- Built reusable UI components and optimized responsive layouts to ensure seamless performance across desktop, tablet, and mobile devices.
- Enhanced user experience by implementing interactive animations, clean navigation, and performance-focused frontend best practices.

SKILLS

Programming Languages

Java, JavaScript

Frontend:

React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend & APIs:

Spring Boot, REST APIs, Spring Security

Database & ORM:

MySQL, JDBC

Developer Tools

Git, Postman, Docker (Basic).

Cloud & CS Fundamentals

Linux, Data Structures & Algorithms, System Design, DBMS.

ACHIEVEMENTS

- [GeeksforGeeks](#): Solved 401 problems (87 Basic, 121 Easy, 150 Medium, 43 Hard) rankings in the Top 10% problem solver.
- Participated in a Web Design Hackathon at **CUTM**, developing UI/UX solutions under time constraints.
- Participated in the Web Design internal hackathon hosted at **IIT Bhubaneswar**.
- Participated in the SIH internal hackathon hosted at **CUTM Bhubaneswar**.
- Core Java from beginners to advanced level | Author | June 2026** [Book Link](#)
Published an 858-page programming book covering Core Java from beginner to advanced concepts, including OOP, Collections, Multithreading, JDBC, Java 8, and interview-focused topics.
